HEREOF fail not and make return of this Warrant with your doings thereon to the Town Clerk at the time and place aforesaid.

Given under our hands this seventeenth day of January in the year one thousand nine hundred and forty-nine.

LAWRENCE J. ARMY FRANCIS C. DALEY FRED R. BALDWIN

Selectmen of Millbury.

Millbury, Mass.
Attest:

Constable of Millbury.

Report of Selectmen

To the Citizens of the Town of Millbury:

Your Selectmen herein present the reports of the several Town Officers for the year ending December, 1948.

We sincerely thank all of the Town Officers and the various departments for their splendid cooperation and

support during the past year.

The cost of labor and material has risen sharply in the past five years, which inevitably reacted in increased cost of operation for all Town Departments. Under our form of government these increases result in a heavier burden for the Corporate and Individual Taxpayer. It is the hope of your Board of Selectmen that you study the Annual Warrant for the year 1949 with the view to be, reasonable, just, and conservative in your actions.

During the past year another section of the Riverlin Street Ch. 90 construction project was completed. This section entailed a great amount of cut, fill, and rock removal, but by the use of Town-owned equipment a sub-

stantial saving was made.

The Millbury Avenue sidewalk was continued from the end of the 1947 section to a point beyond Dorothy Road.

A sidewalk plow was purchased for the Highway Department and has already proven to be a wise investment. There has been only one snow storm since the arrival of this plow but on that occasion this little fellow cleared all of the principal sidewalks in all sections of town in less than one day and then made itself very useful with the snow loader in removing snow from our main thoroughfares. In years past it would be several days before many of our main streets were cleared.

We urge you to study the articles in the warrant concern-

ing new equipment for the Highway Department.

It is our desire that some action be taken by the people in obtaining a new sidewalk construction plan that would, over a period of years and at a nominal sum each year, eventually complete the installation of permanent sidewalks on all of our main streets.

Through our continued efforts, Route 122-A on the State Highway was resurfaced with Type 1 Bituminous Concrete and a third lane added, from Jacques Curve to the

Providence Road at Park Hill.

During 1948 the Town Hall portion of the Town Hall Building was condemned by the Massachusetts Department of Public Safety and is now closed until their requirements are met with. A committee was appointed to make a survey of the needs of all municipal buildings and report their findings at the annual meeting in March, 1949.

A Bill was passed in the State Legislature to place the Office of Veterans' Agent for the Town of Millbury under Civil Service. To comply with this act of the legislature the encumbent, Mr. John M. Hamilton took the physical and written examinations for this position, passed with unusually high marks and was appointed to the Office by this Board. Mr. Hamilton, in the past two years, has proven himself to be of splendid character and has conducted his office in a very efficient manner.

In co-operation with Chief Vulter, the Selectmen are attempting to obtain the approval of the Department of Public Works, to install an overhead traffic signal at Central Square. It will then be possible to remove the "Old Iron Mike" and eliminate traffic congestion at this point.

The Town has lost two industries and of course two large payrolls in the last two years. We are now faced with the possible loss of one more large industrial plant. The Selectmen have enlisted the co-operation of several of the leading manufacturers and business men in town to help us obtain new industries.

There is a considerable amount of residential construction in progress and with the easing of the material shortage it is hoped there will be a large increase in assessed valuation from this source in the current year.

Your Selectmen were finally successful in their efforts to obtain bus service on the Bramanville Line to West

Millbury.

Approximately four acres of land were acquired in the rear of the East Millbury School, to be used as a public recreation field.

The downward trend of the Excess and Deficiency Fund for the past several years has been stopped and is now on the upswing. This is a healthy sign for the financial standing of your town and any group or individual who may be contemplating the location of a new industry or business here would look upon this item favorably.

We extend our sincere and deepest sympathy to the family of the late Martin J. Roach who served Millbury faithfully and efficiently for many years as Highway Surveyor and to the family of the late William J. Braney who

served so well in the same capacity.

LAWRENCE A. ARMY, FRANCIS C. DALEY, FRED R. BALDWIN,

Board of Selectmen.

Report of Auditor

Millbury, Mass., January 15, 1949.

I hereby respectfully submit my Annual Report of the Cash Receipts and Expenditures, Financial Report and Appropriation Balances for the year ending December 31, 1948.

Yours respectfully,

JAMES J. CASSIDY,

Auditor.

Veterans' Service Department

Millbury, Mass., December 31, 1948.

To the Honorable Board of Selectmen of the Town of

Millbury:

As Director of the Department of Veterans' Services and Veterans' Agent in the Town of Millbury, I hereby submit my report of activities and services rendered for the year 1948.

1750 Visits to the Center by Veterans or their dependents seeking various information pertaining to their

rights and benefits.

50 Original discharges recorded bringing the total of official recordings to 751. There are still many Veterans who have not had their discharges recorded and who should have this done.

159 Photostatic copies of discharge papers have been made without cost to our Veterans. In addition we have made photostatic copies of records for the Treasurer's Office necessary in his County Retirement System work of which Millbury is a member.

71 Cases against the Veterans Administration pertaining to Education, Training, and Subsistance Allow-

ance.

102 Cases against the Veterans Administration for Service and Non-Service connected disability compensation, widow's pensions, National Service Life

Insurance, Out Patient Dental and Medical care.

19 Veterans were taken to Cushing Veterans Administration Hospital and admitted as emergency cases.

25 Cases pertaining to Naturalization, Lost Discharges, Terminal Leave, Federal Income Tax, War Bonds

and Review of Discharge.

Correspondence for the above cases has been heavy during the past year due to the fact that most Veterans have been out of the Service for three years or more and it becomes more and more difficult to establish these claims as time goes on.

I sincerely urge all Veterans who have disabilities to file their claims now and not wait until it is almost impossible

to help them.

For details of expenditures and reimbursements of this Department see the Auditors' report.

Veterans Benefits:

A total of 71 cases representing 187 people were filed.

- 66 Cases with Millbury Settlements.

 1 Case with No Settlement (State).
 - 4 Cases with Out-of-Town Settlements.

Respectfully submitted,

JOHN M. HAMILTON,

Director and Agent.

Report of the Board of Public Welfare

Millbury, Mass., December 31, 1948.

To the Selectmen of the Town of Millbury:

The report of the Charlton Home Farm Association will be found on another page of this book.

For details of the expenditures and reimbursements of

this department see Auditor's report.

During the year a total number of 308 cases representing 465 persons were aided throughout the Department.

TEMPORARY AID:

47 cases with Millbury Settlements.

13 cases with No Settlement (State)

14 cases with Out-of-Town Settlements.

12 cases with Millbury Settlements living elsewhere.

OLD AGE ASSISTANCE:

134 Cases with Millbury Settlements.

32 cases with no Settlement (State)

20 cases with Out-of-Town Settlements.

20 cases with Millbury Settlements living elsewhere.

AID TO DEPENDENT CHILDREN:

Our General Relief case load consisted of unemployable cases, being that of widows or separated, divorced and deserted mothers with minor children ineligible for Aid to Dependent Children; and non-citizens over 65 years of age ineligible for Old Age Assistance; also persons who were physically incapacitated. Among the employable cases there were the delinquent fathers, the alcoholics and those who are incapable of holding a steady job or those laid off due to the lack of work and awaiting unemployment compensation; and a large number ineligible for veterans service for

On our Old Age Assistance and Aid to Dependent Children a revision was made in the mandatory budget and all

budgets were increased according to law.

one reason or another.

Our Old Age Assistance medical expenses increased rapidly this past year and the number of hospitalized Old

Age Assistance cases was also greatly increased.

Since eligibility for public assistance is always based on need there is no alternative but to grant same as required, always keeping in mind the hope of rehabilitating wherever possible to do so.

1 soda acid chemical, and 150 feet of $2\frac{1}{2}$ inch hose.

This year has been a good year in regard to fire loss. We have had the makings of good fires, but due to the promptness in sounding alarms, and the good work done by the department, has prevented a serious loss. The department has been highly praised by mill owners and citizens owning private homes and have made generous donations to the Firemen's Relief Fund in appreciation of the good work in saving them a greater loss. We wish to take this opportunity to extend our sincere thanks.

Our new ladder truck has proved to be of great help in fighting fires, and is a great asset to the fire department.

We have remodeled engine three from East Millbury into a forest fire truck. It has been a great help in combating forest fires. We have installed a large tank for carrying water to the fires and equipped it with chemicals and water pumps.

Our greatest loss was caused from the fire at the Social Club which was \$16,000.00 on property and \$6,000.00 on contents. The building was practically a total loss on the arrival of the department. This fire was fought with a temperature of ten below zero.

Respectfully submitted.

WILLIAM D. HORNE. JOSEPH E. ARMY RICHARD F. GILLERT Board of Fire Engineers.

REPORT OF FOREST FIRE WARDEN

To the Board of Selectmen:

This department consists of one Warden and eight Deputies.

This year I have answered twenty Grass Fires, twenty-

four Brush Fires and eight Dump Fires.

According to the number of serious fires in the surrounding towns, we were very fortunate, due to the fact that the department was notified before it got out of control. was no fire loss due to forest or grass fires.

For equipment, I have on hand twenty-three $2\frac{1}{2}$ gallon chemicals, twenty-eight water pump cans, six rakes, 25

pounds of soda and one carboy of acid.

Be sure you secure a permit before you do any burning and see that your incinerator is in good condition.

Respectfully submitted,

WILLIAM D. HORNE. Forest Fire Warden.

Report of Highway Surveyor

Millbury, Mass., January 5, 1949.

To the Honorable Board of Selectmen:

I hereby submit my annual report as Highway Surveyor

for the year 1948.

In executing the obligations of my position, I have endeavored to maintain an efficient administration and have expended to the best of my ability the appropriations

allotted the Highway Department.

The Highway Department greatly appreciates the new Cletrac sidewalk plow that was delivered this past December. Although we have only used it in one snow storm, at the time of this report, it was found to be of great value in plowing of sidewalks and loading the trucks with sand. It is felt that it will be of great value throughout the year in different jobs, such as, removing of the dirt which was rolled back on several roads throughout the town, which had to be done for widening, and draining purposes.

Due to the great amount of snow this past winter, a great deal more damage was done to the roads and fences throughout the town than in previous years, requiring a considerable increase in the amount of patching and money spent

from the Highway appropriation.

A great deal of money was spent for the purpose of cleaning out catch-basins and sweeping streets due to the great amount of sanding necessary for the winter of 1947-48. The sweeping of streets is necessary to help keep clean the catch-basins and drain pipes, and is much cheaper than cleaning a plugged basin of drain. The Highway Department feels that this cost could be greatly reduced by the purchase of a Highway Sweeping Machine.

All streets and roads have had attention. The following

is a list of some of the major repairs:

South Oxford Road—Graveled, approximately ‡ mile.

Federal Hill Road—Graveled.

Davis Road—Graveled, approximately ½ mile. Stone Road—Graveled and ditch widened.

Backstrad Road—Graveled, widened, oiled.

Stowe Road—Graveled.

Auburn Road—Graveled, and widened to eliminate further washouts, also $\frac{1}{2}$ mile of oil applied.

Beech Street—Corner widened and brush removed to

eliminate a blind corner.

Harris Avenus—Graveled, widened, and heavy coat of asphalt approximate distance ½ mile.

Eight Lots Road—Cleaned and rebuilt stone ditch, and added new drainage.

Elm Street—Center strip, heavy coat of asphalt and honed.

Dewey Street—Graveled and widened.

Lincoln Avenue Extension—Graveled and widened.

West Main Street—Heavy coat of asphalt from Library to Colbrooks Store, approximate distance $\frac{7}{8}$ mile, width 36'.

Greenwood Street—Tainer Hill, approximately ¼ mile rebuilt requiring 18" of gravel, two heavy coats of oil, and 40' of drain pipe. Ledge removed near Old Common.

McCracken Road—Heavy coat of asphalt from Greenwood Street to Salmonsen's Green House.

Park Hill Avenue—Heavy coat of asphalt from Southwest Cut-off to Old St. Joseph School.

Wheelock Avenue—Heavy coat of tar, approximate distance 2000'.

Dority Road—Heavy coat of asphalt entire length.

Millbury Ave.—Heavy coat of asphalt from triangle to Howe's Pond.

Croyden Street—Partly graveled, catch-basin and 80' of drain pipe installed. Five hundred dollars spent to a good advantage. Recommend additional money be appropriated for more gravel, drainage and oil.

The Town of Millbury again contracted the job of Chapter 90, Construction, to continue the building of the new road on Riverlin Street. The section of this road which was started in 1947 has been completed, and 1800 feet has been cleared, filled, drainage installed and graveled, ready for paving next spring. Due to the deep fills out into, what is called, the Farm pond, it was felt that it would be advisable to allow these fills to settle before paving.

An increased proportion of the Highway appropriation

was required to repair sidewalks this past year.

Due to the higher cost of materials and equipment hire, the amount of intended work for 1948 was somewhat curtailed. The Tar and Asphalt Companies expect another

price increase in the Spring of 1949.

An emergency appropriation for Main Street was allotted the Highway Department for the purpose of removing an old culvert and installing new reinforced concrete pipe, repairing two old catch-basins, and installing a new one. It is felt that this work has eliminated a hazardous condition at the corner of Main and Canal Street.

The Highway Department greatly appreciates the assist-

ance and cooperation of all Town Officials.

Respectfully submitted,

LEVI J. CHASE,

Highway Surveyor.

WITH

RECOMMENDATIONS

BY THE

FINANCE COMMITTEE

OF THE

Town of Millbury

FOR THE YEAR

1949

WORCESTER, SS.

To either of the Constables of the Town of Millbury, in the County of Worcester, Greeting:

In the name of the Commonwealth of Massachusetts, you are directed to notify and warn the inhabitants of the Town of Millbury qualified to vote in elections and town affairs to meet at the Town Hall, in said Millbury, on Monday, the 7th day of February, next, at seven o'clock in the forenoon, to elect the following officers, to wit:

Article 1. To choose a Town Clerk, Treasurer, Collector of Taxes, Auditor, Moderator, Six Constables, Tree Warden, Highway Surveyor, and three members of the Board of Selectmen, all for the term of one year: One member of the School Committee, one Assessor, one member of the Board of Health, one Commissioner of Cemeteries and two members of the Board of Public Welfare and one Trustee of Town Library, all for the term of three years, all to be voted for on one ballot.

Article 2. To choose all other necessary Town Officers for the year ensuing.

And to meet on March 12, 1949, at 2:00 P.M. in the Legion Hall, in said Millbury, to act on the following articles, to wit:

Article 3. To hear the reports of several Town Officers and Committees and act thereon.

Notice of every special Town Meeting shall be given by posting an attested copy of the warrant as above directed and further notice shall be given by publication of the date, time and place at least three (3) consecutive days prior to the holding of said special Town Meeting.

The Finance Committee recommends favorable action on Article #66.

Article 67. To see if the Town will vote to accept a deed from Massasoit Woods Realty Trust for the street known as MacArthur Drive, and one water front lot for a public bathing beach.

The Finance Committee recommends postponement on Article #67 until such time as the Board of Survey approves acceptance of said road in accordance with town by-laws.

The polls will be open at 7:00 A.M. and shall be closed at 7:00 o'clock P.M.

And you are directed to serve this warrant by posting up an attested copy thereof at each of the Post Offices and at the First Congregational Meeting House in Bramanville, and at the Fire Station located on Wheelock Avenue, East Millbury, and at Ruskin's Store at Dority Pond, and at Davenport's Store on Park Hill Avenue, in said Town, seven days at least before the time of holding said meeting.

HEREOF fail not and make return of this Warrant with your doings thereon to the Town Clerk at the time and place aforesaid.

Given under our hands this seventeenth day of January in the year one thousand nine hundred and forty-nine.

LAWRENCE J. ARMY FRANCIS C. DALEY FRED R. BALDWIN

Millbury, Mass.
Attest:

Selectmen of Millbury. Constable of Millbury.

"The money appropriated will determine the tax rate."

To Lt. j.g. and Mrs. Eugene Adelor De Rosier of New York City for 18 very fine books of non-fiction and fiction.

To Mrs. Gordon Henshaw, Mr. A. J. Sweet and Dr. E. O. Angell for magazines.

(Signed) LAURA E. PALETTA,

Librarian.

The Trustees also wish to express their thanks and appreciation for the above donations and for the special appropriation made by the town which will enable us to make repairs to the building, that were urgently needed. Several leaky spots in the roof have been repaired, the parapet wall on the east and west side of the building were rebuilt and copper flashing has been placed at the edge of the roof gutters and along the header course bricks.

D. L. KELLEHER,
M. P. LACOUTURE,
C. C. FERGUSON.

Trustees.

Report of Tree Warden, Gypsy Moth and Elm Beetle Superintendent

Millbury, Massachusetts December 31, 1948.

To the Honorable Board of Selectmen of the Town of Millbury:

I hereby submit my report as the Tree Warden, Gypsy and Brown Tail Moth and Elm Beetle Superintendent of the Town of Millbury.

During the past year I have cut down a number of dangerous trees with our new power saw and did a great deal of trimming of trees and brush on the highway.

The Gypsy Moths are very numerous this year. The Brown Tail Moths have diminished somewhat of late. The Elm Beetle and Dutch Elm Disease are destroying many of our fine elm trees.

Sincerely,

EDWARD F. ROACH,
Tree Warden and Local Moth Superintendent
of the Town of Millbury, Mass.

Report of Dog Officer

Millbury, Massachusetts
December 31, 1948.

To the Honorable Board of Selectmen:

The activities of this department are as follows: Stray dogs picked up, kept 6 days and destroyed 30
Complaints of residents
Complaints of dogs killing chickens 1
Dog bites reported by Board of Health, dogs ordered
restrained 14 days 26
Dogs living in wild state, destroyed 3
Dogs ordered restrained or muzzled 1
Dog damage to livestock\$13.50
Dog officer expense refunded from County Dog Fund 7.20
I have filed with the Town Treasurer, 30 certificates for
which the town should be reimbursed \$181.00 from my
expenditure for the year.

Respectfully submitted,

RUFUS W. COLBY.

To his pupils he gave generously with a sincere interest, a kindly patience and a sympathetic understanding; to all who knew him, he has left the memory of courage, appreciation and true loyalty.

Report of School Committee

To the Citizens of Millbury:

Your School Committee submits herewith the annual report for the school year ending December 31, 1948.

During the summer vacation the entire interior of the high school was thoroughly renovated. A similar project was undertaken at the Providence Street School and was completed during the Christmas vacation. These two improvements were the most pressing out of many which claimed the attention of the Committee and exhausted the available funds for repair.

The total cost to the town for the operation of the schools for the past school year was \$145,729.07. This figure was made possible through refunds amounting to \$13,169.99 because of teachers' salaries and tuition fees.

The detailed financial statements for the year follow:

Report of Superintendent of Schools

To the School Committee:

I respectfully submit my twelfth annual report and the fifty-ninth in the series of reports of the Millbury School Superintendents.

During the past year educators have been pondering what the increased national birth rate will mean for the public schools. From 1939 to 1947 the national birth rate jumped from 17.3 per thousand of population to 26.2. This is practically an increase of one-third in eight years. During these years very few new school buildings have been constructed. The result has been that the schools have been unable to properly house the increasing classes. Reports from all over the country tell of makeshift classrooms in private and public buildings. Double sessions, undesirable from an educational point of view, have been resorted to in order to accommodate the overflow classes. All admit that these are merely temporary expedients, and that the only permanent solution is the construction of more school buildings. It is also admitted that without state or federal aid it will be impossible for many school districts to finance the necessary facilities. The high cost of repairs for existing buildings has made it impossible for many cities and towns to keep their school structures in proper condition. Still, we know that the size of classes will increase for several years, and some provision will have to be made for them.

Applying these observations to our Millbury school system we find that eventually all the grammar school buildings will have to be enlarged. At the Burbank School there are thirty-nine children in the first grade. This means that in two years it will be impossible to conduct the third and fourth grades in one room. Either another room must be provided, or double sessions in these two grades will become imperative. At the Providence Street School, because of the extraordinary enrollment in the first and second grades, an extra teacher was assigned this September. There are six grades in this school, and we must anticipate adding two more rooms in order to provide a room for each grade. At the Dorothy Manor School the same conditions exist as at the Providence Street School. We have four rooms where six are required. At the East Millbury School the conditions are even more deplorable. In this school three rooms house six grades. The school population is increasing most rapidly in this section, and in a few years it will be impossible to accommodate the increased enrollment without a six-room building in place of our present three-room school. In the center of the town lack of space made it necessary to send the fifth and sixth grade pupils to the Providence Street School. This condition will exist until the town is able to build a new high school.

The new State Aid law for school construction, passed in 1948, provides from ten to fifty percent aid for new school construction. Millbury would receive fifty percent aid under this law. So far, however, no funds are available to provide this aid. When the funds become available it would be wise for Millbury to have plans ready for the necessary additions to the schools.

Of particular interest to the citizens of Millbury is the state-aid-to-schools law (Chapter 643 of the Acts of 1948) passed by the State Legislature this year. This law reapportions to the cities and towns of the State a certain amount of the income tax received by the State. As a result of this reapportionment some towns and cities will receive more money while others will receive less. Millbury is fortunate in that it will receive a net increase of \$24,487.20 under this law. While

the law does not require that the new money be used for the schools, it does indicate in Sections 1 and 10 that the money is provided to "promote equalization of educational opportunity in public schools of the commonwealth and the equalization of the burden of the cost of the schools to the respective towns."

The following formula will indicate how we arrived at the figure of \$24,487.20 as increased state aid to the town treasury under the new law, Chapter 643—An Act Relative to School Funds and State Aid for Public Schools.

DISTRIBUTION OF INCOME TAX PROCEEDS

INCREASE TO TOWN TREASURY,

\$24,487.20 or 1949 \$24,487.20 or amount school budget can be increased without increasing local tax rate.

For every \$1,000,000 increase in total income tax proceeds to the state, Millbury will receive an increase of \$1,000 on valuation basis.

Repairs for the year are summed up in the painting of the entire interiors of the high school and the Providence Street School.

The cooperation of the parents has made possible a successful school year. Without their whole-hearted support it would be impossible to maintain the high standards of our schools. Once again I wish to thank the members of the School Committee for their devoted and invaluable cooperation in so many phases of the school work.

Respectfully submitted,

WILLIAM D. SHEA,

Superintendent of Schools.

REPORT OF MR. STEPHEN BEATON, HIGH SCHOOL PRINCIPAL

The attendance in the high school at the beginning of this school year was 325. This is a slight, but very negligible, increase over last year's opening attendance. This figure compares very favorably with the average opening day figures of the past four years and bears out what we have predicted for these past years and what may be expected for the next few years.

There were but two changes in the high school faculty for this year. One of these changes occurred in June when we lost the valued services of Miss Rose Massei, teacher of household arts in the high school for the last seventeen years. Miss Massei left us to accept a position in the Worcester schools as teacher of household arts in the Providence Street Junior High School. This position in our household arts department was filled by Miss Rose Neri, whom we welcome to our faculty. Miss Neri, a former graduate of Millbury High School, graduated from Boston University in 1945. The second change in our faculty was brought about this fall by the untimely death of Mr. Harold Jannery, a teacher loved and respected by both pupils and teachers. His services to the pupils and to myself were immeasurable and will remain a cherished memory. Mr. Jannery was a teacher of English and general mathematics, and we have been fortunate to obtain the services of so able a substitute as Mrs. Barbara Owen, a former Millbury High and Junior High School teacher, to complete the school year.

The prizes awarded annually to the members of the senior class were presented to the following students: Miss Maxine Reade, The Massachusetts Society of the Sons of the American Revolution Award for the highest average in American History; Miss Beverly Cote, the Millbury Woman's Club Scholarship Award of one hundred dollars; Miss Maxine Reade, the Good Citizenship Certificate given by the Daughters of the American Revolution; Robert Goff, the Rensselaer Award for proficiency in mathematics and the sciences; Miss Maxine Reade, the Becker Junior College Scholarship Key for proficiency in commercial subjects; Miss Rosemary Norton and Roland Dunn, the Millbury High School Athletic Award.

In addition to the above mentioned prizes, another prize contest was inaugurated in the high school. This contest was made possible by the donation of the salary of Town Moderator by Mr. Fred Baldwin, the present incumbent. The nature of the contest was to be essays by the high school pupils pertaining to some civic improvement needed in Millbury. The freshman winners were as follows: First prize, Marjorie Shaw; second prize, Joan Averill; third prize, Jessie Credit. Sophomore class winners were: First prize, Rosamond Hall; second prize, Barbara Army; third prize, Joan Rice. Junior class winners were: First prize, Arthur Briddon; second prize, Katherine Markey, third prize, Mary Power. Senior class winners were: First prize, James O'Neill; second prize, Mary Credit; third prize, Roland Dunn. The amount of the donation was fifty dollars, which was divided as follows: six dollars for first prize, four dollars for second prize, and two dollars and a half for third prize.

Millbury High School has again been approved in class "A" by the Supervisor of Secondary Education, Mr. A. Russell Mack.

It is very gratifying to be able to report that all of our graduates of the past two years who made application to a college and

whose marks entitled them to certificate privileges were accepted, even though entrance lists to all the colleges throughout the country have been over-subscribed.

The French, Biology, and Science clubs, under the able supervision of Miss Helen Brown, Mr. Richard Kenary, and Mr. Thomas McGinn, respectively, all completed and enjoyed a successful year. Junior Red Cross, under the guidance of Mrs. Harris Rice and Mr. Raymond Shaw, carried on its usual fine and useful work. The Reflector, under the capable supervision of Mr. Joseph Kenneally, continued to be published with the same high standards of previous years. The dramatic club, under the capable direction of Miss Margaret Marlborough, successfully produced the play called "Spring Green" in the town hall. During the past year two new clubs joined our extra-curricular fold, namely: the Camera Club, under the competent guidance of the Messrs. Thomas McGinn, Richard Kenary, and Wilmar Ela, completed a successful year; the Orchestra and Talent Club, under the skillful direction of Miss Katherine Bowe, experienced an enjoyable and instructive year.

Our athletic teams, both boys and girls, performed very creditably during the past year. In particular, the football team, under the efficient coaching of Mr. Martin Roach and his two able assistants, Mr. Michael Trychon and Mr. James O'Leary, which was undefeated and shared league honors with Uxbridge High, deserves commendation. The girls' teams, under the talented coaching of Miss Eleanor McNamara, also deserve complimenting for their fine spirit and play.

May I, as principal of Millbury High School, thank the parents of our pupils for their fine spirit of cooperation which enabled us to again maintain a better than 95 per cent attendance record for the past school year.

REPORT OF MISS ELEANOR McNAMARA, SUPERVISOR OF PHYSICAL EDUCATION

For the training of youth for play and recreation, physical education is an important subject in the school curriculum.

In the lower grades games must be selected carefully by age levels for the sake of the sports themselves as well as for the sake of the children. The program of activities for these children consists of free exercises, athletic games of low organization, relays and rhythmical activities. There are adequate play areas at all grammar schools, and during the past year at the Dorothy Manor School, selected types of equipment have been properly installed on the school grounds.

The girls of high school age carry on a varied and planned program. The most popular sports are field hockey and basketball. In the past, the teams competed in interscholastic games in both these sports, but this year, in basketball the competition had to be limited to intramural games. Because of inadequate gym facilities, there will be a decrease among Milbury students as participants and spectators at interscholastic basketball games. The following are a few of the needs arising from this present situation: better dressing, locker and shower rooms, proper ventilation and lighting, better storage cabinets, better athletic programs for high school girls and boys.

I feel that as physical education has progressed from the old

day of formal drill to the new day of recreational activities, so must it keep on progressing to meet the future hopes of a new generation.

REPORT OF MISS ROSE B. NERI, SUPERVISOR OF HOME ECONOMICS

Sewing is helpful to every girl regardless of her future ambition. It enables her to make, renovate, and care for her wardrobe as well as to become more conscious of her appearance.

In the seventh grade the girls are taught how to use correctly the tools needed in sewing. They are taught the most common hand stitches which are used in the making of a sewing bag, pin cushion, and needle book. If time permits, a small article for home use is also made. Toward the end of the year they become familiar with the sewing machine; they are taught the different parts of the machine, and they get some practice in using it. The proper use and care of the machine is stressed.

In the eighth grade the girls acquire a thorough knowledge of the sewing machine and learn its applicative uses. They are taught the various seams which later are applied in the making of two articles of underwear and a very simple cotton dress. In making these articles the girls use the commercial pattern. They learn what the different perforations and notches mean and how to alter the pattern to their individual measurements if necessary. They are soon able to use a pattern following directions given with it without any difficulty.

In the senior high school sewing is not compulsory. Those electing it do so because they like it. Now, they use the more complicated patterns to make their clothing; they become familiar with different fabrics, and they learn the more intricate details about sewing. The girls gain some knowledge in style and by working together they attain more ideas for themselves. More individual instruction is possible in the high school as the classes are a great deal smaller.

REPORT OF MR. WILMAR H. ELA, SUPERVISOR OF INDUSTRIAL ARTS

The courses offered by the Industrial Arts Department are Woodwork, Mechanical Drawing and Home Mechanics.

Junior high school boys are required to take the courses in Woodwork and Home Mechanics for two hours each week. Fundamental steps in the development of useful projects are taught in the school shop. These may include the learning of the names and uses of hand tools and the proper sequence of operations to complete the finished article. The repair and maintenance of the home and household items such as bell wiring, lamp and cord repair, faucets, and furniture are included in the course of Home Mechanics in the junior high school.

Woodwork and Mechanical Drawing are offered to the high school students as elective subjects. The minimum requirement for these courses is two periods each week of each subject elected. High school students in the Woodworking course are taught advance methods of construction and the use of power machines. Production methods and the use of jigs and fixtures are taught wherever practicable.

Safety in the school shop is taught in each class and is properly stressed with each individual using the woodworking machines and equipment.

The Mechanical Drawing course in the high school includes sketching of machine parts, models and furniture, isometric, oblique orthographic, three-view and architectural drawing, tracing and blue-printing.

The popularity of these courses in the high school has been manifested by the number of students who enroll. The expansion of these Industrial Arts courses both in the junior and senior high school, I feel sure, would be justified.

REPORT OF MISS KATHERINE M. BOWE, SUPERVISOR OF MUSIC

The basic principles and elementary fundamentals of music are, of necessity, taught in the lower grades, that the child may advance to an intelligent and well-rounded understanding and appreciation of the best in music.

The first grade children are trained in rhythms and sounds through the medium of clapping exercises and singable and lilting tunes. From the second grade to the junior high school a step-by-step training in tones, tempos, rhythms, and sight reading is undertaken.

The junior high school children progress from the reading of twopart songs to the more difficult task of correctly interpreting three and four-part numbers.

Freshman chorus, a general singing period, is held one period a week during the first semester. Senior chorus starts in February, and, after a theory review, graduation music is planned and studied. The Glee Club, an elective organization, with a membership of sixty-five at the present time, rehearses one period a week on more difficult numbers and also prepares for their appearance at the graduation exercises.

Last year an orchestra was organized, and with the assistance of other talented singers and instrumentalists in the high school, presented assemblies at Holden and Spencer as well as at home. This group is diligently working after school on Wednesdays and are planning on several public appearances this season.

The success of our musical endeavors is due to the whole-hearted cooperation of our Superintendent, Mr. Shea, our Principal, Mr. Beaton, and the efforts of the teachers in both the elementary and junior high schools.

REPORT OF MISS FLORENCE M. SCARPACI, SUPERVISOR OF ART

Art is a language—a means of expression. The way to learn to read art is to study art. Art has its "vocabulary" in the esthetic elements—light, dark, color, line, and form (shape); and its grammar—called principles of composition, or design.

In beginning the study of art, it is not necessary to go direct to the art galleries. One should learn to walk before attempting to run; learn to read the first reader before attempting the sixth. Thus in our lower grades we learn to read simple sentences in line, color, light and dark. Our media here is crayon. In the middle grades (grades 4, 5, and 6), we review these same basic principles adding a few practice periods and then proceeding to the more complex seen in the gallery art by studying reproductions

The work is more individualized in the junior high school and we are able to further our study in color harmony, lettering and principles of design on a more advanced scale. The junior high school pupils are painting very well planned and very well organized pictures under the supervision of Miss Leary. These pictures are to be framed and given as Christmas presents.

In the high school, our time is very limited and we are unable to cover and accomplish as much as I would like. However, we have covered our advanced principles of design, line, form, and light and dark by completing a problem based on The Ballet. The media used in this project was charcoal. We are now working on a group problem—Christmas comes to Millbury High School. We hope to complete other problems using textile paints, photography colors, pastels and clay as added media.

In laying a foundation for appreciation, reproductions of works of art, slides and television may do for the student of art what the phonograph and the radio has done for the student of music.

REPORT OF ARTHUR A. BROWN, M.D., SCHOOL PHYSICIAN

All school buildings in town have been visited and inspected and were found in a satisfactory condition. The examination of pupils in all the grades and high school has been completed. This examination also included an examination of feet.

In June, examinations of pre-school children were held at the East Millbury, Dorothy Manor, Burbank and Union Buildings. Special examinations were given to high school boys and girls engaged in competitive sports.

First aid was rendered to a number of children with minor lacerations and abrasions.

Of the communicable diseases, measles was very prevalent in the spring, and mumps in the fall.

REPORT OF MISS MAY A STAFFORD, R.N., SCHOOL NURSE

The physical examinations have been completed through the eighth grade and the parents have been notified of the defects found. The following list of defects were found as a result of these examinations:

Hypertrophied Tonsils	97
Enlarged glands	4
Carious teeth	361
Major heart cases	4
Minor heart cases	30
Foot trouble (arch)	89

It was noted that many children had tonsil operations performed by private physicians. The Kiwanis Club have again helped us with deserving cases and five children have had tonsil operations. A good shoe was recommended for the children having slight arch trouble and the response of the parents by taking care of these cases was very good.

CLINICS

PRE-SCHOOL

Four pre-school clinics were held as usual and eighty-six children were examined. Parents were present at these clinics and discussed with the school physician the defects found.

DENTAL

The dental clinic sponsored by the Board of Health and in charge of Dr. M. M. Hennebery is held once a week. Thirty clinics have been held from the first of January to the twenty-fourth of November and the following work has been completed:

Permanent fillings	273
Temporary fillings	9
Prophylaxis	30
Treatments	10
Extractions (Permanent)	4
Extractions (Temporary)	15
Examinations	285

The need for dental work throughout the schools is great. We urge parents to have their family dentist care for and preserve children's permanent teeth. The school clinic can take care of only those who cannot go to a private dentist. Dental cards were given to children having all needed work done. Many grades attained an average of 50% and 75%, but only one grade, Miss Alice O'Brien's second grade at the Union School, had 100%.

VISION

The vision test has been given and all cases of defective vision have had attention. Seven children were given eye examinations by a specialist and were fitted to glasses. This work was made possible through the eye-glass fund.

SPEECH

The clinic held at Worcester City Hospital for the children with speech defects was discontinued for several months, but is to begin again very soon. We have thirty children in our schools with some degree of speech defect.

The Census of Physically Handicapped Children has been taken and sent to the Department of Education and Public Health. Many of these children have been helped through the clinic held at Worcester City Hospital.

Through the sale of Christmas seals and pins, we were able to send five girls to Sterling Health Camp for eight weeks last summer. These girls gained in weight and their health has greatly improved.

During the year milk was provided for five children through the Salvation Army Fund.

The routine work was carried on throughout the year. A constant check is made of heads and we find that this condition is much better now than it has been in the past. 450 calls have been made to the homes and 60 children who became ill at school were taken home. We again urge parents to keep children who are sick home from school. 250 children have been given first aid, and many individual conferences have been held. In September and October a number of cases of measles at the East Millbury School and mumps at the Burbank School were reported. However, the general health of the school children is excellent.

During the year, lectures on health and conferences on problems existing in the school health program, were attended by the school nurse.
